SAFETY

1. Read the operator's manual carefully and familiarize yourself with the proper use of your attachment. Do not allow anyone who is not acquainted with the Safety Instructions to use your attachment.
2. Know the controls and how to stop them quickly. READ THE OPERATOR'S MANUAL!
3. Do not allow children to operate the machine. Do not allow adults to operate it without proper instruction.
4. Be especially watchful of children and pets entering into the area while operating.
5. Keep your eyes and mind on your machine while mowing or operating your attachment. Don't let others distract you.
6. Do not attempt to operate your machine when not in the driver's seat.
7. Always shut off blades and engine when emptying the container.
8. Stop machine, shut off deck attachment, set parking brake, shut off engine and remove ignition key before removing clogs, removing or replacing hose, boot, blower cone, or performing any maintenance.
9. Mow across the face of slopes (not more than 10 degrees); never up and down the face.
10. It is recommended that the container be emptied when half full while operating on slopes. Start mowing on slopes when the container is empty.
11. Inspect your lawn and remove any foreign objects before mowing. Never deliberately run the mower across any foreign object.
12. Wear hearing protection.
13. Wear eye protection to prevent debris from getting into your eyes.

SAFETY

WARNING! **NEVER** operate the mower unless the discharge guard and either the deflector assembly or the vacuum collector adapter are fastened securely in place.

WARNING! Do not work around the mower deck boot or the blower area until you are certain that the mower blades and the blower impeller have stopped rotating.

WARNING! To avoid serious injury, perform maintenance on the vacuum collector; **ONLY AFTER STOPPING THE MOWER'S ENGINE AND WAITING FOR ALL MOVING PARTS TO COME TO A COMPLETE STOP.** Set the parking brake. Always remove the ignition key before beginning maintenance.

WARNING! For your own personal safety, **ALWAYS** mow **ACROSS** the face of slopes and **NEVER UP** and **DOWN** the face. **NEVER** attempt to mow excessively steep slopes, and use caution when turning on any slope.

Safety Alert Symbol

This Safety Alert Symbol means: **“ATTENTION! BECOME ALERT! YOUR SAFETY IS INVOLVED!”**

This symbol is used to call attention to safety precautions that should be followed by the operator to avoid accidents. When you see this symbol, carefully read the message that follows and heed its advice. Failure to comply with safety precautions could result in death or serious bodily injury.

Safety Signs

The signal words **DANGER**, **WARNING**, and **CAUTION** are used on the equipment safety signs. These words are intended to alert the viewer to the existence and the degree of hazard seriousness.

White letters on **RED**

This signal word indicates a potentially hazardous situation which, if not avoided, will result in death or serious injury.

Black letters on **ORANGE**

This signal word indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.

It may also be used to alert against unsafe practices.

Black letters on **YELLOW**

This signal word indicates a potentially hazardous situation which, if not avoided, will result in minor or moderate injury.

It may also be used to alert against unsafe practices.

PECO LIMITED WARRANTY FOR NEW PRODUCTS

New PECO, Inc. extends the following warranties to the ORIGINAL PURCHASER of each New PECO, Inc. consumer product purchased from one of our Dealers or directly from New PECO, Inc., subject to the following limitations:

A. ITEMS COVERED UNDER WARRANTY

1. **PRODUCT WARRANTY** – Any part or parts which are deemed defective in material or workmanship, as delivered to the original purchaser, will either be repaired or replaced, as New PECO, Inc. elects, without charge for parts or labor, if the defect appears within 12 months from the date of purchase of the product to the Original Purchaser.
2. **PARTS REPLACED DURING WARRANTY** – Any New PECO, Inc. part which is furnished in performance of this warranty and is defective in material or workmanship as delivered to the purchaser will be repaired or replaced, as New PECO, Inc. elects, before the expiration of the original warranty period.

B. WARRANTY DISTINCTIONS

1. **RESIDENTIAL** - Products put to a personal use around a single household or residence are considered Residential. Products designated as “Residential” are warrantied for 12 months from the date of purchase of the product, to the ORIGINAL PURCHASER with proof of purchase, when used for or in residential applications.
2. **COMMERCIAL** – Products put to any business use (agricultural, commercial or industrial) or used at multiple locations are considered Commercial. Products designated as “Commercial” are warrantied for 12 months from the date of purchase of the product, to the ORIGINAL PURCHASER with proof of purchase, when used for or in commercial applications. Products designated as “Residential” are warrantied for 90 days from the date of purchase of the product, to the ORIGINAL PURCHASER with proof of purchase, when used for or in Commercial applications.
3. **RENTAL** – Products used for Rental or Lease Purposes are warrantied for 45 days from date of purchase of the product, to the ORIGINAL PURCHASER with proof of purchase, when used for or in a rental business.

C. ITEMS NOT COVERED BY NEW PECO WARRANTY

1. **ENGINES & BATTERIES:** Engines and Batteries attached to New PECO, Inc. products are covered under their respective separate manufacturer warranties and those companies must be contacted directly to file a warranty claim. Briggs & Stratton: https://www.briggsandstratton.com/na/en_us/support/warranty.html
2. **UNAPPROVED ALTERATION OR MODIFICATION:** All obligations of New PECO, Inc. under this warranty shall be terminated if products are altered or modified in any way not approved by New PECO, Inc.
3. **ACCIDENTS & NORMAL MAINTENANCE:** This warranty covers ONLY manufacturers defective material and workmanship. It does not cover depreciation or damage caused by normal wear & tear, accident, improper maintenance, misuse or abuse of products. New PECO, Inc. products must be operated and maintained in accordance with the instructions furnished in the manuals. The cost of normal maintenance and normal replacement of service items such as belts, cutting blades, hoses, bags, etc., which are not defective shall be paid for by the purchaser.
4. **NO SERVICE CENTER WARRANTY:** The selling Service Center/Dealer makes no warranty on his own on any item warranted by New PECO, Inc. unless he delivers to purchaser a separate written warranty certificate specifically warranting the item. The Service Center or Dealer has no authority to make any representation or promise on behalf of New PECO, Inc. or to modify the terms of the original warranty in any way.
5. **NO REPRESENTATIONS ADDITIONAL WARRANTIES, DISCLAIMER:** Neither New PECO, Inc. nor any company affiliated with New PECO, Inc. makes any warranties, representations or promises as to the quality of performance of its products other than those set forth herein. Except as described above, New PECO, Inc. makes no other warranties **AND SPECIFICALLY DISCLAIMS ANY AND ALL IMPLIED WARRANTIES OF FITNESS AND MERCHANTABILITY.**
6. **REMEDIED EXCLUSIVE:** The only remedies the purchaser has in connection with the breach or performance of any warranty on New PECO, Inc. consumer products are set forth above. In no event will New PECO, Inc. be liable for special incidental or consequential damages.

Warranty service is available through your local authorized service dealer or distributor. If you do not know the dealer or distributor in your area, search by your zip code on www.lawnvac.com or contact our Sales Department at New PECO, Inc. 800-438-5823 or email Sales@lawnvac.com.

Section 1 Introduction

Thank you for purchasing the newly re-designed PECO Z-Trimmer model number ZT-3000. We took all the great features our customers have grown to love, and improved them for greater durability and performance.

The Z-Trimmer is an attachment for your riding mower, zero-turn mower or tractor, that allows you to trim and mow at the same time. Your productivity and efficiency will improve and you will save time and labor.

The Z-Trimmer is designed for light duty trimming, and is equipped with a thermal circuit breaker. If the breaker trips while in operation, your electric motor is operating at a higher temperature than recommended. Use of the Z-Trimmer in heavy duty applications may create excessive draw from the electrical system for the machine on which the trimmer is mounted, resulting in incomplete charging of the machines battery. For optimum performance, alternating use of the Z-Trimmer and normal mowing is recommended.

Note: Always operate the Z-Trimmer with the mower or tractor at full throttle.

The trimmer line should be no longer than 6" per side of the trimmer head. Longer lengths will cause excessive power consumption and reduce the efficiency of the trimmer.

The breakaway action of the Z-Trimmer is intended to provide relief when hitting objects. Many zero turn radius mowers travel at speeds of 8+ MPH. At speeds greater than 2 MPH, hitting objects with the Z-Trimmer **will** cause damage to the unit. The trimmer is intended to trim at a speed of 1 MPH, depending on the material that is being trimmed. Trimming at faster speeds will decrease performance of the trimmer.

NOTE: Always wear the proper personal protection equipment when operating the PECO Z-Trimmer.

Section 2 Installation For Use

Pivot Block Assembly Installation

Position and place the Pivot Spring (Item #) over the Pivot Bushing of the Base Plate Assembly (Item #3). Position the top end of the Pivot Spring over the right side of the Spring Bracket of the Base Plate Assembly and the lower end of the Pivot Spring over the bottom left side of the Spring Bracket. Refer to Figure A.

Next, position the Pivot Block Assembly (Item #1) aligning the Pivot Bushing of the Base Plate Assembly to that of the Pivot Block Bushing of the Pivot Block Assembly, and at the same time, aligning and positioning the Pivot Pin in between the Pivot Spring. Refer to Figure B.

Note: Some parts and part features have been hidden from view from each respective view for visual clarity.

Figure A

Figure B

| Item # | Part # | Desc. | Qty. |
|--------|-------------|---|------|
| 1 | ZTA-0004_01 | Pivot Block Assembly | 1 |
| 2 | ZT-0010 | Pivot Spring | 1 |
| 3 | ZTA-0102 | Base Plate Assembly | 1 |
| 4 | K1153 | HHCS 5/16"-18 x 3/4" | 1 |
| 5 | K0047 | Flat Washer 3/8" / 1.00 OD x .446 ID x .075 T | 1 |

Finally, secure the Pivot Block Assembly to the Base Plate Assembly by using (1) 5/16"-18 x 3/4" HHCS (Item #4) and (1) 3/8" Flat Washer (Item #5). Refer to Figure C.

Figure C

Assembled View

Refer to Page 16 for the exploded view of the Pivot Block Assembly P#(ZTA-0004_01)

Exploded View

Upper & Lower Handle Assembly

First, install the Power Switch (Item #4) by inserting it through the top mount hole of the Upper Handle Assembly (Item #1). Position and place the Safety Cover (Item #5) over the Power Switch and using the Power Switch's knurl nut, secure the Power Switch and Safety Cover. Refer to Figure A.

Next, position and mount the Circuit Breaker (Item #9) through the right mounting hole of the Upper Handle Assembly. Then position the Electrical Cover (Item #3) in front of the Upper Handle Assy aligning the mounting hole with the mounting bushing. Secure the Electrical Cover by using (1) 10-32 x 3/8" Pan Head Screw (Item #6).

Finally, position the assembled Upper Handle Assembly over the Lower Handle Assembly (Item #2) and secure both Upper and Lower Handle Assembly by using (2) 1/4"-20 x 1/2" HHCS (Item #7) and (2) 1/4"-20 Nyloc Nuts (Item #8).

Fit the Handle Grip (Item #10) over the handle of the Upper Handle Assembly. Refer to Figure A.

Figure A

| Item # | Part # | Desc. | Qty. |
|--------|----------|-------------------------------|------|
| 1 | ZTA-0111 | Upper Handle Assembly | 1 |
| 2 | ZTA-0112 | Lower Handle Assembly | 1 |
| 3 | ZT-0032 | Electrical Cover | 1 |
| 4 | J2001 | Power Toggle Switch | 1 |
| 5 | P0073 | Safety Cover for Toggle | 1 |
| 6 | K0320 | 10-32 x 3/8" Pan Head Screw | 1 |
| 7 | K1105 | 1/4"-20 x 1/2" HHCS | 2 |
| 8 | K1128 | 1/4"-20 Nyloc Nut | 2 |
| 9 | P0018 | 20 Amp Manual Circuit Breaker | 1 |
| 10 | V1158 | Handle Grip | 1 |

Note: Some parts and features have been hidden from view for visual clarity.

Lower Handle Assembly Installation

Position the Lower Handle Assembly (Item #1) to the lower rear mount holes of the Pivot Block Assembly (Item #2).

Place (1) 1/4" Flat Washer (Item #4) between the Lower Handle Assy and the Pivot Block Assembly on both sides. Refer to Figure B. Secure the Lower Handle Assy by using (1) 5/16"-18 x 4" HHCS (Item #3) and (1) 5/16"-18 Ny-Flange Lock Nut (Item #5). Leave the fastener loose enough so that the Lower Handle Assembly can freely pivot.

Note: Some parts and features have been hidden from view for visual clarity.

Figure B

| Item # | Part # | Desc. | Qty. |
|--------|-------------|--|------|
| 1 | ZTA-0112 | Lower Handle Assembly | 1 |
| 2 | ZTA-0004_01 | Pivot Block Assembly | 1 |
| 3 | K0293 | 5/16"-18 x 4" HHCS | 1 |
| 4 | K0037 | Flat Washer / 1/4" (.75 OD x .312 ID x .060 T) | 2 |
| 5 | K2516 | Ny-Flange Lock Nut 5/16"-18 | 1 |

Swing Arm Installation

Position the Swing Arm (Item #5) to the front mount holes of the Pivot Block Assembly (Item #1). Place (1) 1/4" Flat Washer (Item #4) between the Swing Arm and the Pivot Block Assembly on both sides. Refer to Figure A.

Secure the Lower Handle Assy by using (1) 5/16"-18 x 4" HHCS (Item #2) and (1) 5/16"-18 Ny-Flange Lock Nut (Item #3). Leave fastener loose enough so that the Swing Arm will be able to pivot up and down freely.

Figure A

| Item # | Part # | Desc. | Qty. |
|--------|-------------|--|------|
| 1 | ZT-0106 | Swing Arm | 1 |
| 2 | K0293 | 5/16"-18 x 4-" HHCS | 1 |
| 3 | K2516 | Ny-Flange Lock Nut 5/16"-18 | 1 |
| 4 | K0037 | Flat Washer / 1/4" (.75 OD x .312 ID x .060 T) | 2 |
| 5 | ZTA-0004_01 | Pivot Block Assembly | 1 |

Note: Some parts and features have been hidden from view for visual clarity.

Motor & Trimmer Head Installation

Place the Motor (Item #1) into the Motor Mount (Item #2) and align the Head Shroud (Item #3) under the Motor Mount Pivot and secure the Motor by using (2) 10-32 Hex Nuts (Item #7). Refer to Figure B.

Place the Shaft Bushing (Item #6) onto the shaft of the Motor and use (1) 1/4"-28 x 1/4" Set Screw (Item #8) to secure the Shaft Bushing. Once secured, position and install the Trimmer Head (Item #4) and secure the Trimmer Head by using the Shaft Nut (Item #9). After securing the Trimmer Head, close off the bottom of the Trimmer Head using the Glide Plate (Item #5). Refer to Figure B.

Note: Some parts and features have been hidden from view for visual clarity.

Figure B

| Item # | Part # | Desc. | Qty. |
|--------|---------|--------------------------|------|
| 1 | ZT-0014 | 3" PMDC Motor | 1 |
| 2 | ZT-0108 | Motor Mount Pivot | 1 |
| 3 | ZT-0027 | Head Shroud | 1 |
| 4 | ZT-0018 | Trimmer Head | 1 |
| 5 | ZT-0025 | Glide Plate | 1 |
| 6 | ZT-0012 | Shaft Bushing | 1 |
| 7 | K0357 | 10-32 HEX NUT | 2 |
| 8 | K0295 | 1/4"-28 x 1/4" Set Screw | 1 |
| 9 | ZT-0013 | Shaft Nut | 1 |

Motor Mount Pivot Installation

Position (2) of the mounting holes of the Motor Mount Pivot (Item #1) between the Swing Arm (Item #2). Refer to Figure A. For desired cut height adjustments, see [page 11](#).

| Item # | Part # | Desc. | Qty. |
|--------|---------|--|------|
| 1 | ZT-0108 | Motor Mount Pivot | 1 |
| 2 | ZT-0106 | Swing Arm | 1 |
| 3 | ZT-0009 | Pivot Lock Bushing | 1 |
| 4 | K0292 | 5/16"-18 x 4-1/2" Carriage Bolt | 1 |
| 5 | K1163 | 5/16"-18 x 4-1/4" HHCS | 1 |
| 6 | K0037 | Flat Washer / 1/4" (.75 OD x .312 ID x .060 T) | 4 |
| 7 | K2516 | Ny-Flange Lock Nut 5/16"-18 | 1 |
| 8 | J0256 | Star Knob | 1 |

Note: Some parts and features have been hidden from each respective view for visual clarity.

Once positioned, secure the Motor Mount Pivot by positioning the Pivot Lock Bushing (Item #3) between the top mount hole you are using of the Motor Mount, refer to Figure B. Then use (1) 5/16"-18 x 4-1/2" Carriage Bolt (Item #4), (2) 1/4" Flat Washers (Item #6) and (1) Star Knob (Item #8) to secure the Motor Mount Pivot. Leave the fastener loose enough so that the Motor Mount Pivot will be able to pivot back and forth freely.

Then use (1) 5/16"-18 x 4-1/4" HHCS (Item #5), (2) 1/4" Flat Washers (Item #6) and (1) 5/16"-18 Ny-Flange Lock Nut (Item #7) on the bottom mount hole of the Motor Mount Pivot.

Refer to Figure C.

Figure A

Figure C

Section 3 Mounting Instructions

NOTE: The Z-Trimmer is designed to fit most styles of mowing decks. We recommend using 4 mounting holes to secure the Z-Trimmer to the mowing deck. The style of mowing deck on your machine will determine which mounting holes you will use.

Before drilling any holes into your mowing deck, locate the best position for the Z-Trimmer. Things you should consider before drilling any holes:

- Clearance for the Z-Trimmer in both the up and down positions.
- Accessibility to the handle from the operator's seat.
- Distance between the trimmer head and the mowing deck when the Z-Trimmer is in the engaged position.
- Check for possible blade interference.

Place the Z-Trimmer to the side of the mowing deck opposite of the grass discharge chute. Position the base plate so that the plate is flush with the edge of the deck and on center. Once in position, mark four holes from the base plate onto your mowing deck. Drill the holes with a 1/4" (.250-.257) drill bit. Secure the Z-Trimmer to the mower deck using (4) 1/4"-20 x 1" Hex Bolts P#(K1125) and (4) 1/4"-20 Nylon Flange Locknuts P#(K2014). Refer to Figure A and B.

Figure A

Figure B

NOTE: Route the power cable before connecting the cable to the battery. After the Z-trimmer has been secured to the mowing deck, connect the main power cable to the mower battery (connect the **red** wire to the **positive** terminal and the **black** wire to the **negative** terminal). Route the cable around the outside of the operator seat so that the cable does not interfere with the seat or the control arms. Keep cable away from all heat sources. Use zip-ties to secure the power cable, once the best routing has been determined.

Section 4 Operating Instructions

When not in use, the Z-Trimmer should be in the upright position with the latch hook secured. See Figure A.

Figure C

Trimming

1. Release the latch hook and lower the trimmer into the down position. Refer to Figure B.

Figure D

Trimming (cont.)

To activate trimmer head, lift the toggle switch cover and flip the toggle switch forward. To de-activate the trimmer head, push the toggle switch cover down. Refer to Figure C.

NOTE: If the circuit breaker on the Z-Trimmer trips, close the toggle switch cover, wait five seconds and then push the reset button before turning on.

Edging

To position the trimmer head for edging, loosen the star knob shown in Figure D, rotate the trimmer head into the position desired for edging and re-tighten the star knob.

Section 5 Height Adjustment

While in the down position, adjust the height of the trimmer head so that it is in line with the blades on the mower deck.

For fine tuning adjustment of the height, use the adjustment bolt shown in Figure B. Turn the bolt clockwise to lower the swing arm, or counter-clockwise to raise the swing arm.

Section 6 Trimmer Line

To replace trimmer line, bend a new line into two equal lengths, insert the line ends into the holes on the trimmer head. The head will automatically route the line out the correct hole. Pull each end taught and adjust if uneven. Refer to Figure A. To order more trimmer line P#(ZT-0017), contact PECO at (800) 438-5823.

Figure A

Section 7 Tips and Recommendations

- Because the Z-Trimmer runs off your machine's charging system, it is recommended to operate the machine at full throttle when using the Z-Trimmer.
- Inspect the Z-Trimmer before each and every use. Examine the base plate to ensure the Z-Trimmer is tightly secured to your machine. Make sure the power cable is secure. Check all moving parts for damage or obstruction. Inspect the trimmer head and line.
- Check the head shroud for any debris before using the Z-Trimmer. Clean if necessary.
- If the circuit breaker trips repeatedly, slow your speed and/or adjust your height setting.
- Keep your trimmer line in an easily accessible, but secure place on your machine. Practice replacing the trimmer line from the operator seat to save time.
- If the Z-Trimmer gets hung up or caught on something, **STOP** and **TURN THE POWER OFF** before inspecting the situation.
- Ensure the Z-Trimmer is in the correct angle (trimming/edging) and that the star knob is tightened securely before use.
- Always inspect the area you are trimming before operating your Z-Trimmer. Look for anything that could potentially get caught up in the trimmer head, or damage the trimmer.

METRIC

Numbers appearing on bolt heads
indicate ASTM class.

Proper torque for metric fasteners used on Peco equipment.
Recommended torque in foot pounds (newton Meters).*

| WRENCH SIZE (mm) "A" | BOLT DIA. (mm) "B" | ASTM 4.6 | ASTM 8.8 | ASTM 9.8 | ASTM 10.9 |
|----------------------------|--------------------------|-------------|-------------|-------------|--------------|
| 8 | 5 | 1.8 (2.4) | | 5.1 (6.9) | 6.5 (8.8) |
| 10 | 6 | 3 (4) | | 8.7 (12) | 11.1 (15) |
| 13 | 8 | 7.3 (10) | | 21.1 (29) | 27 (37) |
| 16 | 10 | 14.5 (20) | | 42 (57) | 53 (72) |
| 18 | 12 | 25 (34) | 74 (100) | 73 (99) | 93 (126) |
| 21 | 14 | 40 (54) | 118 (160) | 116 (157) | 148 (201) |
| 24 | 16 | 62 (84) | 167 (226) | 181 (245) | 230 (312) |
| 30 | 20 | 122 (165) | 325 (440) | | 449 (608) |
| 33 | 22 | | 443 (600) | | 611 (828) |
| 36 | 24 | 211 (286) | 563 (763) | | 778 (1054) |
| 41 | 27 | | 821 (1112) | | 1138 (1542) |
| 46 | 30 | 418 (566) | 1119 (1516) | | 1547 (2096) |

*Use 75% of the specified torque value for plated fasteners. Use 85% of the specified torque values for lubricated fasteners.
